Special to the Indianapolis Journal. SHELBYVILE, Ind., Aug. 4.-The delay in completing the Indianapolis, Shelbyville & Southeastern Traction line is caused by their inability to get their last piece of machinery, a rotary, to the power house, although this has been shipped from the factory at Cincinnati. Another accident to the power house occurred Saturday night, when the supports under a large tank, located just over the boiler and coal rooms. gave way, crashing through the roof to the floors below. The field numbered eleven. Articulate was first away from the post, but Lord Pepper and Blues outran him to the turn. Blues went to the front going down the back stretch and opened up a gap of five lengths. Francesco gradually worked his way into second position and closing on Blues after the stretch was reached and drawing away won handily by four lengths, Herbert second, five lengths before Articulate. Advance Guard was fourth and Carbuncle fifth, close up. Blues collapsed completely nearing the finish. Ethics, Roxano, Nones and Reina were never factors after the first half mile had been traversed. The Flash stakes at 51/2 furlongs resulted in a very easy victory for the favorite, Judith Campbell, who led from the start

to the finish and won at the end by three lengths, Charles Elwood being second and Sergeant third. The Ballston cup steeplechase resulted in a victory for Borough, who, solely through the superior jockeyship of Barry, beat out Self Protection, ridden by his owner, Harry

S. Page, a head. The attendance was very large, the soclety element being out in full force. Eastern and Western owned horses divided the honors, each capturing three races. The weather was clear and warm. Sum-

Burnie Bunton was second, with Wainamoinen third. Fifteen of the fastest sprinters in the West started in the race. Of these Jiminez, Constellator and A. D. Gibson were added starters. Otis, Scorpio and Flora Pomona were scratched. Toah was always the favorite. He ran a good race, after being outfooted the first half, and was beaten only by a head for third money, although seven lengths separated him from the winner. Burnie Bunton was second choice, while Rose Tree was practically overlooked in the betting, as she drifted from 5 to 1 to 12 to 1 at post time. The stake was worth \$3,340 to the winner. Dick Welles fetrieved himself in the second race for the poor showing he made in the Test stakes last week, by turning the five furlongs in 1:00 flat, eased up. Three favorites | tendance, 3,690. and two second choices divided the other five events. Wax Taper ran a remarkable race in the featured attraction, the fourth race on the card. Before a quarter of a mile had been covered Wax Taper seemed hopelessly out of it, but rounding the far turn he began to make up ground rapidly. He passed the rapidly tiring Found as they swung for home and then set sail for Tickful, who was far in advance. #### DEPARTMENT RED TAPE.

Antiquated Methods of Transacting Government Business.

Washington Letter in Boston Transcript. Secretary Shaw has set a big wind blowing through the Treasury Department by his widely quoted remark that he was opposed to keeping persons in office there longer than five years. A number of the men who have grown gray in the service have become uneasy and begun to look over their records to see what they have done which would furnish special ground for their retention as exceptions to this rule. Not since Logan Carlisle gave out that he NEW ORLEANS, Aug. 4.-Under orders had loaded his dismissal gun and started of Manager Powell, the police to-day re- on a hunt for "indispensables" has so much

Now this was undoubtedly what Secretary Shaw had in view. He wished to produce results of some real benefit to the department and the public. He has already discovered two things: One is that the department is still continuing to do certain parts of its work on the same lines as forty years ago, when the business transacted there was an insignificant fraction of what it is now; another is that the instant a new secretary proposes to change these methods he is met with the assurance from a score of lips that "it cannot be done." be to run the risk of having ourselves out- Perhaps a man of different temperament might respond: "I am sure it can be done, and I will study it out and show you how.' Mr. Shaw prefers to teach his subordinates self-dependence, so he says: "It can be done, and you must find a way to do it. If you are unable to, it is probably the fault of your age, which has passed the pliant stage; or else you have got to running in a groove which you are yearly wearing deeper, so that you are making it more and more difficult, if not impossible, to get out. In either event it is plain that a fresher and more resourceful man would do better in your place."

If the old-timers are able to interpret aright Secretary Shaw's recent utterance they will tackle the reformation of their methods in short order. There are some men who seem to be favorites of fortune. They are indus-trious, cheerful workers, full to overflowing of the energy of splendid health, and success seems fairly to drop into their hands. It is of such as these that

baby's advent is practically painless. "I will endeavor to tell you of the many benefits I have derived from taking Dr. Pierce's Favorite Prescription," writes Mrs. B. E. Robert-son, of Medicine Lodge, Barber Co., Kans. "In the fall of 1899 I was expecting to become a mother and suffered terribly with pains in the back of head; in fact I ached all over. Suffered with awful bearing-down pains; I was threat-ened for weeks with mishap. A lady friend told me to use Dr. Pierce's medicines. She had taken them and felt like a new woman. I began using the 'Favorite Prescription' and took four bottles before my baby came and two after-wards. I suffered almost death with my other two children, but hardly realized that I was sick when this baby was born and she weighed twelve and one-quarter pounds. She is now eleven months old and has never known an hour's sickness; at present she weighs thirty-seven pounds. I owe it all to Dr. Pierce's

### COST OF LIVING.

Not Easy to Economize When It Is

the Fashion to Spend. It seems to cost a great deal to live nowadays. Most persons notice it, especially persons who are hard put to it to find the money to pay their bills. The statisticians report that commodities in general use cost, on an average, about 10 per cent more than they did a year ago. The rise in the price of meat contributes a good deal to this advance, though breadstuffs have been high, too. Articles of luxury like good clothes and country houses have grown dearer in proportion than most articles of necessity, because the huge influx of money that the country has sustained has made a brisk market for luxuries. Rents are higher; houses cost more, servants get higher wages, board is higher at summer hotels. Another thing that counts for a great deal is that in prosperous times like these the incomes of very many people are increased and their expenditures are proportionately amplified. They spend more money, live more luxuriously and raise the standard of living. The living expenses of any given family are very much affected by the expenses of other families of their acquaintance, and the scale of living of 'other families" seems just now to have become inconveniently liberal. There is nothing that we are readier to share than our economies. It is easier to economize when it is the fashion. Just now prodigality is so conspicuously prevalent that
